

Logitech®

Pro 2000 Cordless Keyboard

...a robust and encrypted connection to your computer

- Logitech advanced 2.4 GHz wireless technology
- 128-bit AES encryption
- Three-year battery life
- Easy installation and setup
- Time-saving hot keys and extra number-pad

The Logitech® Pro 2000 Cordless Keyboard offers a robust and encrypted connection to your computer. Advanced 2.4 GHz wireless technology delivers a reliable connection, with virtually no delays or dropouts*. Get all the benefits of a cord, with the convenience of wireless. 128-bit AES encryption provides encrypted data transmission from keyboard to receiver, using one of the highest levels of data encryption available. Three-year battery life practically eliminates the hassle of replacing batteries**. Easy installation gets you up and running faster because there's no software to install, and the receiver and keyboard are pre-paired at the factory. And with time-saving hot keys and extra number-pad keys, you can instantly launch your favourite applications – including calculator, e-mail and Internet browser. No software required.
