# QuickCam® S 5500 for Business

**The Logitech® QuickCam® S 5500 for Business is a high-performance webcam designed specifically for professional communication and collaboration.**

A high-performance webcam designed specifically for professional communication and collaboration, the Logitech® QuickCam® S 5500 for Business features a true 1.3-megapixel sensor for exceptionally lifelike images. It offers plug-and-play video calling for users of Windows Vista®, Windows® XP SP2 and Linux (with Linux UVC driver installed). VGA-quality video (640 x 480 pixels) at up to 30 frames per second means you'll enjoy images with an impressive level of detail and fluidity. An integrated privacy shade lets you cover the lens to prevent unwanted transmission of images. QuickCam® for Enterprise software offers IT-friendly installation and, when installed, provides additional features such as video capture, 4-megapixel (software enhanced) photos, audio/video mute, RightLight™ technology, RightSound™ technology and motion detection.

- True 1.3-megapixel sensor
- Plug-and-play, UVC-compliant video calling
- VGA-quality video (640 x 480 pixels) at up to 30 frames per second
- Privacy shade
- QuickCam® for Enterprise software
