

HOMEPLG-E85(TWIN)

85Mbps Powerline Network Kit

Networking

Gaming

Plug n' Play Networking whenever and wherever.

Not relishing the idea of running networking cables at home, the office or at your local School? Are you frustrated with the Wireless speed of your Wireless Router?

Introducing the totally new and very cost-effective Dynamode PowerLine **HOMEPLG-E85(TWIN)** network starter kit. Everything you need to create an instant and high-speed network is in the box. You'll be amazed at the speed of your new, instant network – using the existing electrical cabling around your home or office. No messy setups, no software drivers to install!

Life with Wires. Its easier than you think.

Simply plug one PowerLine into an electrical socket and connect to your existing ADSL or Cable Router via its built-in Ethernet Port. Now plug the other PowerLine in the vicinity you want to work in and again plug your Laptop, PC, Game Console or Network Printer into the PowerLine – instant Networking 24/7.

Ideal for almost any Network application including online Game Play using the XBOX360™ and PlayStation3™ consoles.
