

## Extreme performance matched with unparalleled design.

Kingston® HyperX® Predator memory has the fastest speeds, lowest latencies and highest capacities available in HyperX memory. It's designed for and compatible with all popular brands of motherboards. HyperX Predator is ultra-reliable and 100-percent factory tested to ensure that it will deliver higher performance, ultra-responsive multitasking and a faster system.

Predator features a new heat spreader for greater heat dissipation, and its style complements the look and design of the latest PC hardware. Intel XMP-certified kits are available up to 2666MHz. In addition, top-speed 2800MHz kits were successfully tested and validated on a top range of motherboards currently available on the market. Users can overclock their platforms simply by selecting a profile, with no need for manual adjustments in BIOS.

For added peace of mind, HyperX Predator is backed by a lifetime warranty, free technical support and legendary Kingston reliability.

- > Dense heat spreader for ultimate heat dissipation
- > Speeds up to 2666MHz
- > Intel XMP Certified

### HyperX Predator

#### HyperX Predator delivers:

- Higher performance
- Ultra-responsive multitasking
- An overall faster system

## HyperX Predator

### FEATURES/BENEFITS

- > **Compatible** — tested with all popular brands of motherboards
- > **Reliable** — 100-percent factory tested
- > **Easy to install**
- > **Guaranteed** — lifetime warranty, free technical support

### SPECIFICATIONS

- > **Capacity** 4GB–32GB (with 4GB, 8GB, 16GB and 32GB kits)
- > **Frequency Speed** 1600MHz–2666MHz
- > **Operating Temperature** 0°C to 85°C
- > **Storage Temperature** -55°C to 100°C
- > **Dimensions** 125.8mm x 47.9mm
- > **DDR3 Only**
- > **Available in a variety of CAS Latencies**
- > **Voltage** 1.5V & 1.65V
